

CPSC 349 Homework Submission 6, due 22 April 2020

Your name: BJ Warfield

Portfolio (print): bjwarfield.github.io

Verify each of the following items and place a checkmark in the correct column. Each item incorrectly marked will incur a 5% penalty on the grade for this assignment

Finished	Not finished	
		Files placed in the app/ directory can be viewed at http://localhost:3000 when index.js is running
		Invalid URLs beginning with http://localhost:3000 result in HTTP 404 and the contents of app/ error.html.
		Files served from the app/ directory have the correct MIME type.
		When index.js is running, chats can be held on ws://localhost:3001 as shown in Figure 16.4
		The /topic command works as described in Section (5) above.
		An .eslintrc.js file is present in the root of the repository and all issues detected by linter- eslint have been fixed
		HTML, CSS, and JavaScript code reformatted with the atom-beautify plugin
		Project directory pushed to new GitHub repository listed above
		Project directory has been pushed using a GitHub client, not by manually dragging and-dropping files onto the GitHub web page.
